

April 6th Site Updates

Last Updated Monday, 06 April 2009

New Features all around!!

New profile fields so that you can share more about yourself and get to know others in the pack. I have implemented an automatic event reminder system for the site. It is still in its final testing phase so please report any bug. All active members will receive a weekly email with a list of the following weeks items so that you do not miss out on them. they will be delivered every Friday. All Den meetings in th event calendar must follow the new layout. All den meetings must have their subject as such. "Meeting: Den # RANK" You can put anything you want after that. for Example "Meeting: Den 5 Wolves - First Aid Training" This will allow for the den meeting automatic reminder to send to only that den 3 days prior to any of your dens meetings. Leaders will receive the same kind of emails regarding our meetings.

As always if you have any ideas to make the site or pack work more efficiently, please pass them on.
